Background and objectives.

The appearance of the BMW Clubs.

These design guidelines apply to the communicative and institutional image of the official BMW Clubs. They replace all previously applicable guidelines.

If you have any questions on the appearance of the BMW Clubs,
please consult the BMW Club Office:

Contact: Kati Hockner

Tel: +49 89 382-33 845

E-mail: kati.hockner@partner.bmwgroup.com

Background and objectives.

The appearance of the BMW Clubs.

BMW Club members identify strongly with the BMW Brand and associate BMW products with their own values. As ambassadors and multipliers of the BMW Brand and its products, however, they also bear responsibility for representing BMW in a way that is characteristic of the brand.

After all, the BMW Brand is highly valuable, and such value must be protected. On the one hand this means adhering to certain shared basic rules, but it also means preserving individuality and setting oneself apart from other BMW Clubs.

The BMW Club appearance should be based on the premium aspirations of the BMW Brand. The club must always be clearly recognisable as the sender.

These design guidelines have been developed in close collaboration with the International Council of BMW Clubs. They outline the new appearance using examples for all the relevant media applications, are mandatory worldwide and apply without restriction to all communication and correspondence materials.

The new BMW Club appearance. More contemporary, more powerful and more flexible.

In future the appearance of the BMW Clubs will be more contemporary and more striking, while at the same time offering clubs scope for differentiation among themselves. More space is given to the club logo and there is greater freedom of design.

There are also clear rules to ensure the premium aspirations of the BMW Brand are satisfied, however. These rules provide support in creating an individual appearance for each BMW Club.

BMW Club logo.

The official emblem of a BMW Club.

Below is a schematic illustration of all elements of the BMW Club logo. It should always appear against a white background. Where this is not possible, a white badge is used (for further details see page 25).

BMW Club logo

Two lines are available for the name of the club or place designation.

BMW Club
Designation – line 1
Designation – line 2

The designation BMW Club unmistakably identifies an official BMW Club and always appears in the first line. In some cases the designation can be supplemented or adapted to the language in question (specifications on naming are provided in the guidelines section from page 17).

The BMW symbol is a promise of quality and stands for mobility at premium level.

The BMW Club signet appears in a prominent position, directly below the club name. Where possible it is adapted to the length of the line.

BMW Club identifier

Official BMW Club

The BMW Club identifier shows the club to be an official BMW Club.

BMW symbol.

Valuable objects must be protected.

The symbol represents the BMW Brand and thereby forms the core of the BMW Brand Identity. Careful use of this element guarantees uniformity of appearance as well as a high degree of recognisability.

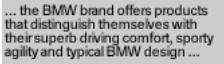

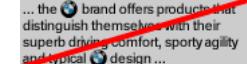

The BMW symbol is subject to worldwide copyright and may only be used by BMW AG and its authorised contractual partners, including the official BMW Clubs. It must always be applied with the greatest of care, since it is a seal of quality for the products and services of the brand.

The BMW symbol always appears in three-dimensional form, in colour and positioned against a white background. The BMW symbol is never altered in any way, i.e. simplified or combined with graphic shapes. Any falsification damages the BMW symbol and therefore the brand in general. For this reason only original digital templates of the BMW symbol may be used.

BMW symbol. Clear rules for a distinguished brand.

The following rules apply to the application of the symbol:

	Positive examples	Negative examples
<p>The symbol is subject to clearly defined design guidelines, which enable a high degree of recognisability. It is never altered, simplified or combined with graphic shapes.</p>		  
<p>The symbol never performs a practical function and is never placed in positions or on objects which might have a negative impact in terms of image. It is never dyed and must never be used in an inflationary manner. The symbol or its component parts may not be used as functional design elements such as bell buttons, snap fasteners, floor mats etc.</p>		  
<p>The symbol may not be used against colourful, restless or photographic backgrounds. In exceptional cases, for example in the field of sponsoring, the symbol can also be applied against coloured backgrounds or placed on photographs of one or more colours.</p>		 
<p>The symbol is never used in body copy or as a substitute for the wordmark.</p>	 <p>... the BMW brand offers products that distinguish themselves with their superb driving comfort, sporty agility and typical BMW design ...</p>	 <p>... the BMW brand offers products that distinguish themselves with their superb driving comfort, sporty agility and typical BMW design ...</p>

BMW wordmark and designations. Unambiguous and unmistakable.

The BMW wordmark is a fixed, unchangeable term. It is to be applied with the greatest of care as it stands for the products and services of BMW. Like the symbol, the wordmark is also subject to worldwide copyright and may only be used as a sender designation by the official BMW Clubs.

	Positive examples	Negative examples
The BMW wordmark always appears in uppercase letters.	BMW	Bmw
The designation BMW Club indicates unambiguously that the club in question is an official BMW Club. The wordmark BMW always appears first, supplemented by the word "Club".	BMW Club BMW Clubs BMW Motorcycle Club BMW Klubben BMW Car Club BMW Owners Club	BMW-Club BMWClub Club Moto Club BMW Club BMW BMW Club
In certain cases the designation BMW Club can be extended or adapted to the language in question.		
If the designation BMW Club is used as the communicative sender, the typeface BMW Type bold is used.		
It always appears in black. Other colours are not permitted, nor is the use of hyphens.		
The designation BMW Club follows the rules of the official brand typeface of BMW: BMW Type - italic type weights and underlining are not permitted - the spacing of the typeface may not be altered	BMW Club	BMW Club B M W C l u b

BMW Type.

The official brand typeface of BMW.

The typeface BMW Type is distinctive down to the smallest details. Each individual letter has been designed and digitalised separately with its own specific line shaping.

The bold type weight of BMW Type is used for the appearance of the BMW Clubs – exclusively for the BMW Club logo and the BMW Club identifier. The typeface may never be used in uppercase, letter-spaced or underlined forms. The type is only applied in either grey or black, never in colour.

BMW Type is not to be used for any other purpose. For other applications, it is recommended that an easily legible, plain and simple sans-serif typeface is used such as Arial.

BMW Type bold
ABCDEFGHIJKLM NOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890 .,!&

BMW Club signet.

A strong BMW Club has a strong symbol.

Recommendations for the design of a signet

Rules regarding the BMW brand elements

BMW Brand Identity elements are a fundamental component of BMW brand communication and may therefore not be used in the BMW Club signet or in communication.

The use of such elements as vehicle designations, the Identity Modules or the BMW symbol is not permitted.

The signet must not bear any similarity in its design to the BMW symbol, either in shape or colour.

No use of complex signets or photographs which do not guarantee high-quality reproduction (e.g. on merchandising articles).

No use of political, racist or sexist symbols.

Positive examples

Negative examples

Power

X5

BMW Club identifier.

The seal of quality of an official BMW Club.

As a supplement to the BMW Club Logo, the so-called identifier may be used for selected applications. The identifier indicates that the club is an officially certified BMW Club. Only official members are permitted to use the BMW Club identifier.

The identifier is as follows:

Official BMW Club

Specifications for the
use of the BMW Club
identifier, see p.26

Visual world. Doing justice to premium aspirations.

The visual world of the BMW Clubs is geared towards the premium aspirations of the BMW Brand. Visuals are to be realistic, powerful and lively. Real situations and objects are shown and no negative messages may be conveyed, such as accidents or breakdowns. Neither may visuals with political, racist or sexist content be used. Photographs must always guarantee high-quality reproduction.

Construction of the BMW Club logo. Three steps to create the new logo.

The following steps are required to transform the old logo into the new logo design:

1. Check the club name and adapt if necessary (see p. 17 and 18)
2. Construction of the new logo consisting of the BMW symbol, the BMW Club designation, the club name and the club signet (see p. 19 and 20)
3. Adaptation of the club signet in height and width (see p. 21)

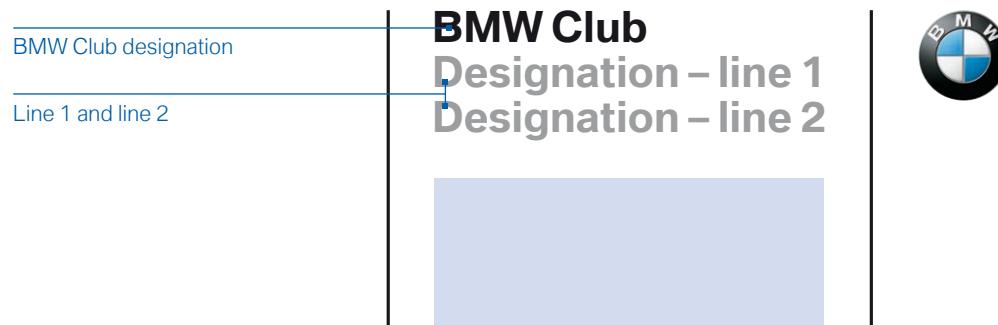

Schematic
illustration

Construction of the BMW Club logo. Clear rules for creating a name.

The following rules apply to the creation of a name:

- The designation BMW Club clearly identifies the club as a member of the official BMW Club Organisation. It always appears in the top line.
- The wordmark BMW must never be omitted and appears first, supplemented by the word "Club" in the same line.
- In certain cases, the designation BMW Club may be extended or adapted to the language in question so as to avoid duplications in the name, e.g. BMW Motorcycle Club, BMW Klubben, BMW Car Club, BMW Owners Club
- There may be a change of order in the elements of the existing club name
- Line 1 and line 2 contain the club name and/or the name of the place

Construction of the BMW Club logo.

The diversity of club names requires a range of solutions.

	Official designation	Adaptation	Correct naming according to the new nomenclature	Examples of incorrect naming
With the term BMW Club or BMW Clubs	BMW Club Düsseldorf 1928 e. V.	Name already conforms to guidelines	BMW Club Düsseldorf 1928 e. V.	Club Düsseldorf 1928 e. V.
With terms such as auto, motorcycle, car etc.	BMW Auto Club Italia	Adaptation of the designation BMW Club to correspond to the name of the club so as to avoid duplication	BMW Auto Club Italia	BMW Club BMW Auto Club Italia
BMW Club as the sender in the 2nd or 3rd line	Bluenose Chapter BMW Club of Canada	- Adaptation of the designation BMW Club to correspond to the name of the club so as to avoid duplication - Change of order of the name components	BMW Club of Canada Bluenose Chapter	BMW Club Bluenose Chapter BMW Club of Canada
With translations	BMW Motors Túraklub Magyarország	The designation BMW Club is replaced by a translation	BMW Motors Túraklub Magyarország	BMW Club BMW Motors Túraklub Magyarország
With abbreviations	Choo Choo Bimmers BMW CCA	- Abbreviations such as CCA (Car Club of America) or MC (Motorclub) are generally written out in full - Duplication of the word "club" should be avoided	BMW Car Club of America Choo Choo Bimmers	BMW Club Choo Choo Bimmers Car Club of America
Without the terms BMW, Club or both	Isetta Club e.V.	Addition of the terms "BMW" and "Club" so as to ensure clear identification of the club as the sender and as a member of the official BMW Club Organisation	BMW Isetta Club e.V.	Isetta Club e.V.
	Boxer Motorrad Club Morelia A. C.		BMW Boxer Motorrad Club Morelia A.C.	Boxer Motorrad Club Morelia A.C.

Construction of the BMW Club logo.

Strict dimensions ensure precise identification of the sender.

This page documents the precise construction of the BMW Club logo. Only original digital masters of the BMW symbol may be used for the reproduction of this logo. Various sizes of the BMW Club logo are available for download at www.bmw-clubs-international.com.

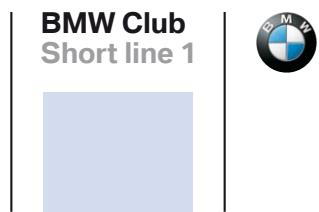

Dimension details

Construction of the BMW Club logo. Lots of scope for a variety of club names.

The BMW Club logo is flexible in width so as to meet the requirements of the varying club name lengths.

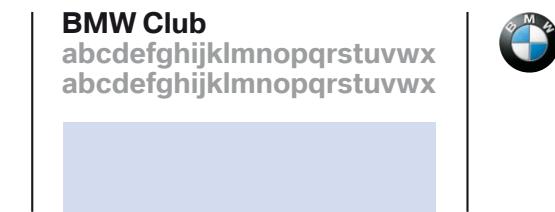

Schematic
illustration

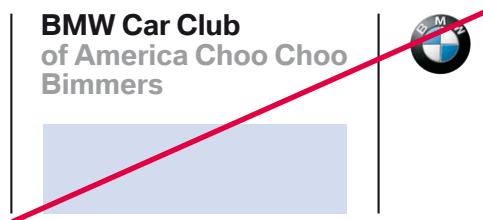

The logo width depends
on the length of the name

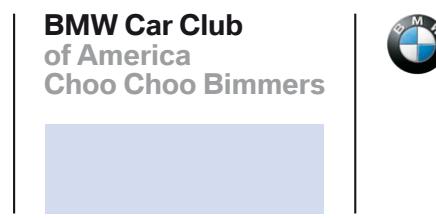

The club name can run across two lines

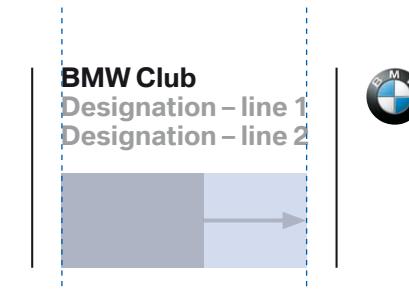

The maximum number of characters of
24 per line may not be exceeded

However, the line break made so as to fit the club name and not simply take up the
maximum number of characters

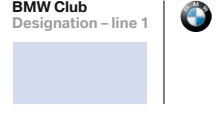

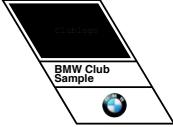

BMW Car Club
of America Choo Choo
Bimmers

The existing signet should be adapted to the
length of the name (for details see p. 21)

Construction of the BMW Club logo. Adaptation of the club signet.

In the course of adaptation to the new BMW Club logo, the effect of some non-rectangular signets can be optimised. Here the basic shape is modified so that the signet can be assigned optimum placement within the new BMW Club logo.

	Existing non-rectangular basic shape	Signet shape	Adaptation to signet space	Adaptation to name length (if possible)	Result

Application of the BMW Club logo. The right size for every application.

Logos are available
for download as digital
templates in all the
sizes shown at
www.bmw-clubs-international.com

Application sizes are defined for each specific medium. The logo sizes shown are recommended for standard formats. Additional sizes can be generated for special applications depending on the technique involved and only in exceptional cases by means of reduction of enlargement of the nearest standard size.

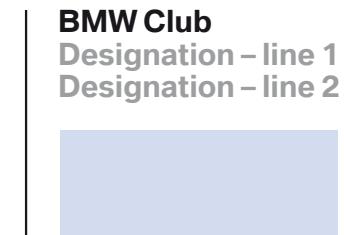

Logo height: 15 mm
Application: business card,
membership card with motif,
give-aways

Logo height: 20 mm
Application: A4 letterhead,
DL flyer, US letter

Logo height: 25 mm
Application: A4 brochure, caps, club badge,
membership card without motif

Logo height: 30 mm
Application: A3 poster, T-shirt

Logo height: 40 mm
Application: A2 poster

BMW Club
Designation – line 1
Designation – line 2

Logo height: 50 mm
Application: A1 poster

Application of the BMW Club logo.

The right reproduction technique for every application.

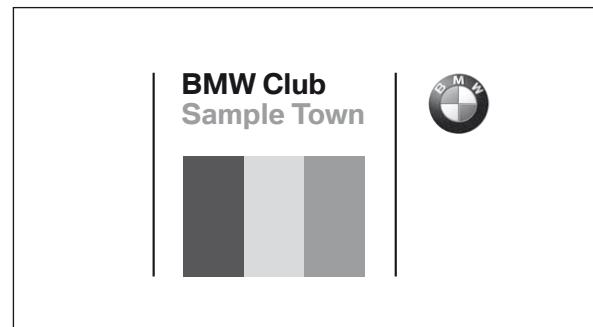

The most common reproduction techniques are described below, illustrated with examples.

The examples are simulations and can only give an approximate impression of the actual effect.

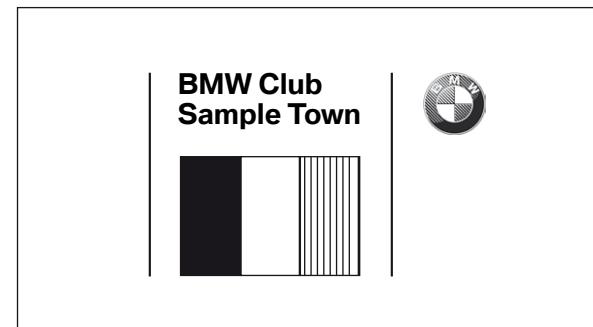

The BMW symbol is available as a digital template for each specific reproduction technique at: www.bmw-clubs-international.com

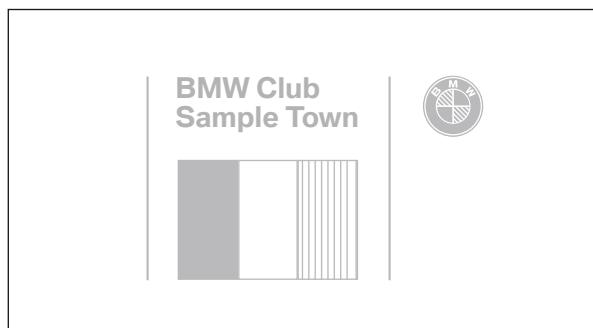

Reproduction technique: offset print, 4-colour
Application: print media

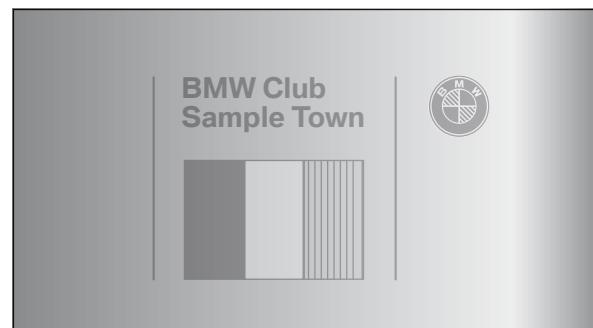

Reproduction technique: 1-colour grey scale
Application: b/w laser printer

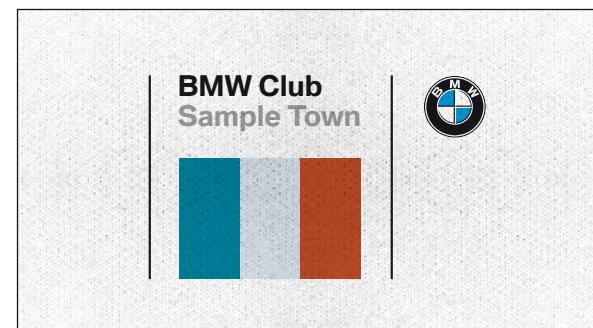

Reproduction technique: 1-colour black
Application: fax

Reproduction technique: blind stamp
Application: print media
Minimum size: logo height 25 mm

Reproduction technique: etching in metal
Application: club badge
Minimum size: logo height 25 mm

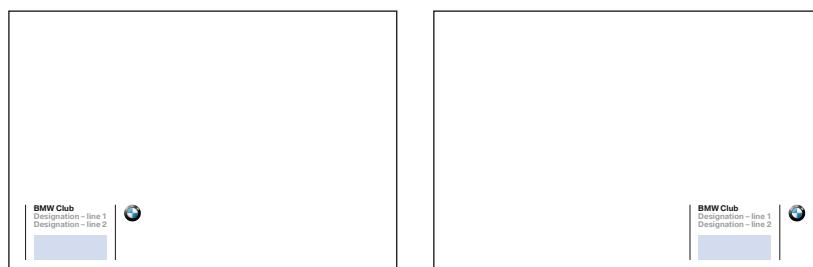

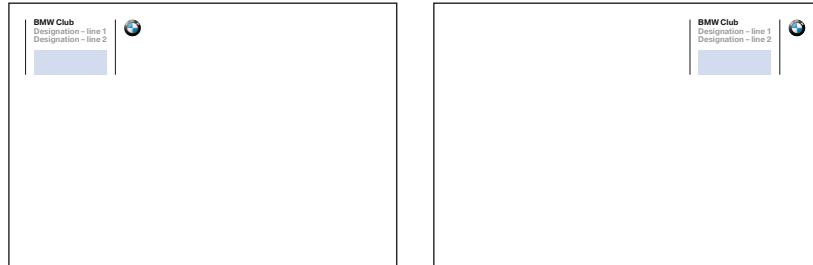

Reproduction technique: screen printing without grid
Application: T-shirts, caps
Minimum size: logo height 25 mm

Application of the BMW Club logo.

Placement always in a corner and against a white background.

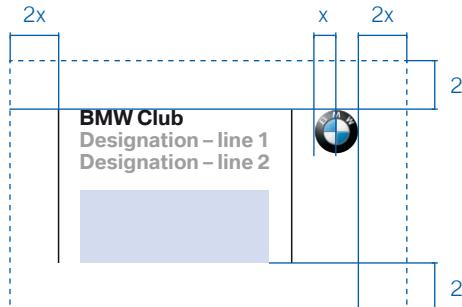

Placement

The BMW Club logo is ideally placed in the corners of the format in question. Media-specific applications are to be found in the section on communicative applications from p. 30.

Free space

The optimum effect of the BMW Club logo depends on the surrounding white space. For this reason a minimum space of one symbol diameter is to be maintained around the logo to separate it from other design elements such as colour areas or photographs.

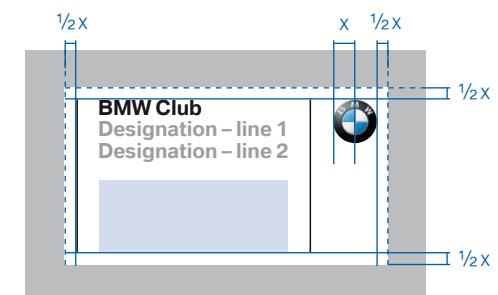

Block zone for adjacent elements

Background

The BMW Club logo always appears against a white background. In certain exceptional cases, the background can be of a different colour (e.g. on merchandising articles). In such cases the logo is placed on a white badge, which is to be created as shown in the illustration below.

Application against a white background

Application against a colour background with white badge

Application of the BMW Club identifier. Identification as an official BMW Club.

The identifier shows a club to be an official BMW Club. The use of the identifier is optional.

Translation

The identifier may be applied in English and in German.

German	Offizieller BMW Club
English	Official BMW Club

Use

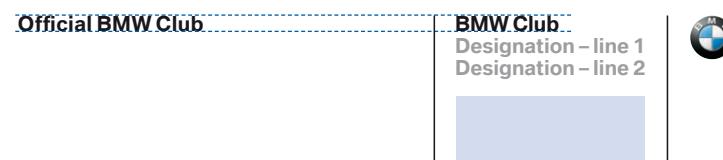

The identifier is only used in certain media. Application examples are to be found in the sections on communicative and institutional applications from p. 30.

Media

Print media	•
Internet	•
Membership card	•
Correspondence	•
Merchandising and lifestyle articles	-
Give-aways	-
Badges and pins	-
Flags	-

Typeface and colour

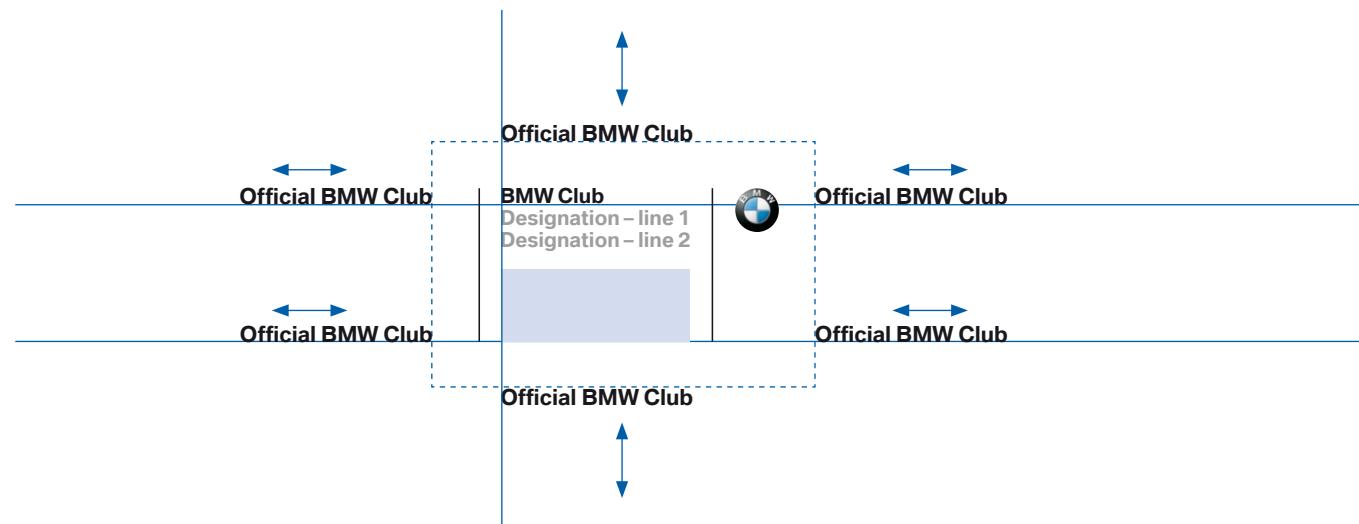

The type size of the identifier must be no larger than that of the BMW Club wordmark. The type weight is BMW Type bold. The identifier should preferably be printed in black. Alternatively, the colours grey and white are permitted, for example on photographs.

Application of the BMW Club identifier. Always in relation to the BMW Club logo.

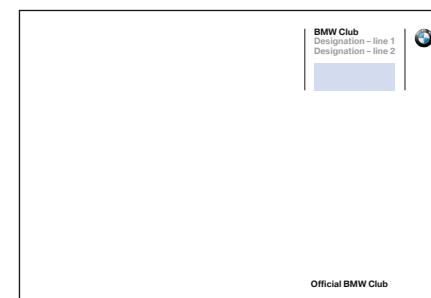

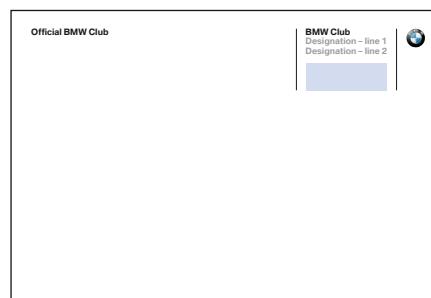

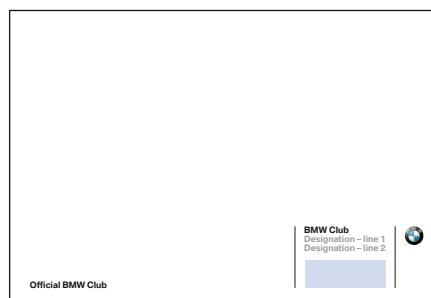

Placement

The identifier is always applied in relation to the placement of the BMW Club logo. In any case a protective gap equal to one symbol width must be maintained from the BMW Club logo. The identifier should preferably be placed as far as possible from the BMW symbol.

The identifier is applied on the axes shown. Placement is flexible, but the protective space around the logo (dotted line) must always be preserved.

Examples of identifier placement

BMW Club structure.

A consistent appearance for the entire organisation.

Organisation	Name	Example
Umbrella organisation	International Council of BMW Clubs	BMW Clubs International Council  
Continents, regions	BMW Club Europa e.V. BMW Car Club of America BMW Clubs Africa BMW Clubs Australia	BMW Club Europa e.V.  BMW Car Club of America  
Countries and states	BMW Club Deutschland e.V. BMW Owners Club of Hong Kong BMW Club of Japan BMW Club Quebec	BMW Club Deutschland e.V.  BMW Owners Club of Hong Kong  
Classic and types	BMW Z1 Club e.V. BMW Veteranen-Club Deutschland e.V.	BMW Z1 Club e.V.  BMW Veteranen Club Deutschland e.V.
